

QUICKSTART GUIDE

Carryall & Basic ULV Foggers

(2680, 2680A, 2610A, 2610)

Box may include spare parts kit - no need to install.

To start spraying

1. Fill tank. **Tighten the lid**, to prevent pressure leak.
2. Plug into power outlet.
3. Turn on the power switch.
4. Adjust flow rate using the nozzle's control knob. **Always keep the fogger upright.**

To stop spraying

1. Turn nozzle flow control knob to 0.
2. Turn off the power switch.
3. **Loosen the solution tank lid** to release residual pressure.
4. Unplug from power outlet.
5. Empty the tank. We recommend rinsing the tank with water.

Storage

1. Clean the solution pipeline by spraying water for 1 minute.
2. Empty the tank.
