

## Mouse Cage Trap

Two-door cage trap that snaps shut when bait is touched.

PGA-MC100

### ① Open doors

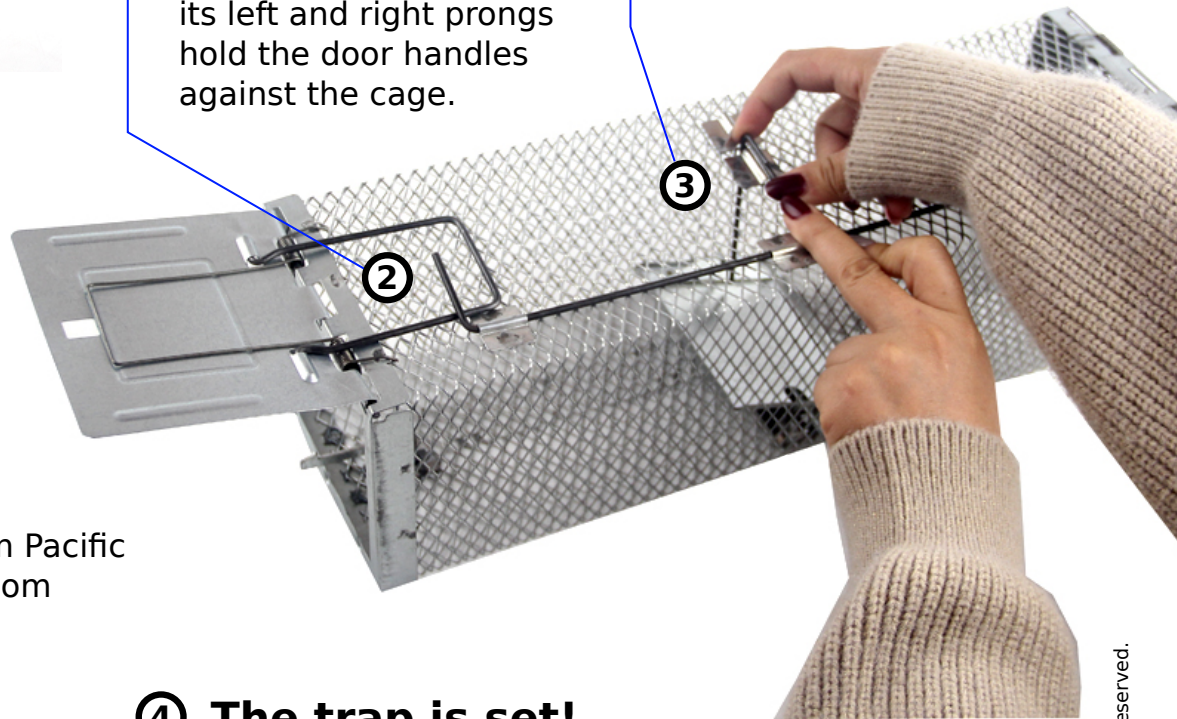

Press the unlock button at the bottom, then raise the door using the handles on top.

### ② Connect trigger wire to doors

Rotate the trigger wire so its left and right prongs hold the door handles against the cage.

### ③ Connect trigger wire to bait plate.

The wire from the central bait plate should sit on top of the middle prong of the trigger wire.
